## PROFILE

A creative, skilled Graphic and Web Designer/Developer, proficient in graphics editing software, as well as hand-coding HTML which is CSS driven. I aim towards W3C standards, skilled in Flash technology with an intermediate level of ActionScripting. I have a good working knowledge of JavaScript, PHP, ASP.NET, mySQL, with the ability to build Content Management System Websites using Joomla and always keeping up to date with current web and print technologies and trends.

A strong team player, highly motivated, work very well under pressure using my own initiative and determination required to meet the tightest of deadlines. I am highly organized, have excellent communication, time management and organisational skills. I am adaptable, conscientious and enthusiastic.
